CAREER SUMMARY

Computer Science Engineering student with a strong foundation in Java, Data Structures & Algorithms, Full-Stack Web Development, and Database Management, complemented by a CGPA of 8.72/10. Skilled in developing scalable web applications using React, Node.js, Express.js, and MongoDB, with a focus on writing clean, efficient, and maintainable code. Committed to contributing innovative software solutions that enhance business efficiency while continuously growing as a Software Development Engineer.

PROJECTS

1. Hostel Management System – Academic Project | 03/2026-05/2026

Role

- SDeveloped a full-stack Hostel Management System to manage student, warden, and administrator operations.
- Designed backend APIs, implemented user authentication, and integrated MongoDB for secure data management.
- Built reusable React components and followed a modular MVC architecture for better code organization.

Tools / Technologies

- React.js, Node.js, Express.js, MongoDB, EJS, Git, GitHub

Learnings

- Full-Stack Web Development, REST APIs, MVC Architecture, Authentication, Database Integration, Team Collaboration

2. CareerConnect – Job Board Platform (Academic Project) | 09/2025 – 011/2025

Role

- Developed a responsive job portal that enables employers to post jobs and students to search and apply for opportunities.
- Implemented user authentication, job filtering, and React Router for seamless navigation.
- Designed reusable UI components to improve maintainability and user experience.

Tools / Technologies

- React.js, JavaScript, HTML, CSS, Node.js, GitHub

Learnings

- React Development, Component-Based Architecture, Routing, State Management, Responsive Web Design

3. Bus Reservation System – Academic Project | 08/2025 – 10/2025

Role

- Designed a relational database for a bus reservation system using ER diagrams and normalization.
- Developed SQL queries for ticket booking, cancellation, and passenger record management.
- Created an optimized database schema with primary and foreign key relationships.

Tools / Technologies

- MySQL, DBMS, ER Diagram

Learnings

- Database Design, SQL Queries, Normalization, Data Modeling, Relational Database Management

ACHIEVEMENTS

- **100+ Days LeetCode Consistency Badge** | 2026
- **Participant – Elite Hack 1.0 Hackathon** | 2026
- **Participant – Code Slayer 2K25 Coding Competition** | 2025
- **Participant – QubitX 2025 Technical Competition** | 2025 .

EDUCATION

Bachelor of Engineering in Computer Science Engineering – **Chitkara University, Punjab** | **Expected Graduation: 2028**

- **CGPA: 8.72 / 10**
- **Key Technologies & Subjects:** Java, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- **AI Agents 101** – AMD AI Academy | **2026**
- **Kubernetes & AI Inference** – AMD AI Academy | **2026**
- **React Basics Masterclass** – WsCube Tech | **2025**
- **Introduction to Web Development with ChatGPT** – Simplilearn SkillUp | **2025**
- **IP Awareness Program** – Intellectual Property Office, Government of India | **2025**

SKILLS

- **Technical / Analytical:** Java, Python, C++, HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL, MongoDB, Git, GitHub, VS Code, DSA, DBMS, OOP
- **Functional:** Full-Stack Development, REST APIs, Database Design, Problem Solving
- **Soft Skills:** Communication, Teamwork, Adaptability

LANGUAGE PROFECIENCY

- **English** – Professional Working Proficiency
- **Hindi** – Native Proficiency
- **Punjabi** – Professional Working Proficiency

Thank you for considering my application; I look forward to the opportunity to contribute meaningfully towards your organizational goals.
